ABOUT THE RAJIV GANDHI UNIVERSITY

Rajiv Gandhi University (formerly Arunachal University) is the premier institution for higher education with NAAC 'A' Grade Accredited Central University in the state of Arunachal Pradesh and has completed more than forty years of its existence. Late Smt. Indira Gandhi, the then Prime Minister of India, laid the foundation stone of the university on 4th February 1984 at Rono Hills, where the present campus is located. Ever since its inception, the university has been trying to achieve excellence and fulfill the objectives as envisaged in the University Act. The University got academic recognition under section 2(f) from the University Grants Commission on 28th March, 1985 and started functioning from 1st April, 1985. It got financial recognition under section 12-B of the UGC on 25th March, 1994. Since then Rajiv Gandhi University then Arunachal University has carved a niche for itself in the educational scenario of the country following its selection as a University with potential for excellence by a high level expert committee of University Grants Commission from among universities in India. The University was converted into a Central University with effect from 9th April 2007 as per notification of Ministry of Human Resource Development, Government of India.

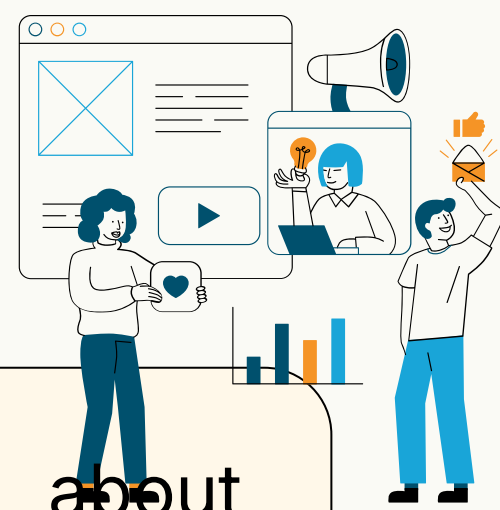

ABOUT THE DST-TECHNOLOGY ENABLING CENTRE

The DST-Technology Enabling Centre at Rajiv Gandhi University has been established by Department of Science and Technology(DST), Govt. of India in the year 2023. The aim of the DST-TEC is to create an Ecosystem for Technology Development in the country and provide a platform to network researchers with other Institutions, Research & Development Centre, Laboratories, Industries & inventors. DST-TEC, RGU is primarily emphasized on the growth of country as well as North-East region by exploring untouched intervention in the technology, local market ready products and overcoming their challenge and also turned them into sturdy business potential. This centre aims to agglomerate a vast talent pool, for promotion of Translational Research which is the key concept to solve real-life problems. The centre is trying to play a key role in making the country and its North-East region to achieve a prominent position in the global platform.

TEC focuses on identifying locally available resources and transforming them into viable technologies and entrepreneurial opportunities.

ABOUT THE SEMINAR

The Startup Awareness Seminar aims to create awareness about entrepreneurship, innovation, and startup opportunities among students, researchers, faculty members, and aspiring entrepreneurs. The seminar will provide participants with practical knowledge about developing ideas, starting a business, understanding the startup ecosystem, and accessing available support, funding, and government initiatives.

THEMES OF DISCUSSION

- Startup ideas and entrepreneurship opportunities
- Innovation, creativity, and problem-solving
- From idea to startup: basic steps and business planning
- Funding opportunities and government startup schemes
- Technology and digital tools for startups

KEY OBJECTIVES

- Create awareness about startups and entrepreneurship
- Encourage students and young people to develop innovative ideas
- Help participants understand how to convert an idea into a business
- Provide information about startup funding and government support
- Promote innovation, creativity, and self-employment
