# Pre-Colonial History and Traditions of Arunachal Pradesh

*Pre-Colonial History and Traditions of Arunachal Pradesh* is a study of three important regions i.e. east, west and central Arunachal Pradesh. It is an attempt towards objective understanding of the pre-colonial traditions of the communities of the state in historical perspective. Most of the publications on this issue have been written by the western authors and they are often biased. The perusal of their writings tempts us to put forward a regional perspective and this study is an endeavour in this direction. This book will be helpful for researchers as well as general readers.
