Fieldwork will be carried out for minimum 18 days and for that students will be accompanied by faculty member(s) as a field guide. The purpose of this paper is to introduce the students with the significance of fieldwork as being the hallmark of anthropology. It also intends to teach the students for conducting fieldwork by applying various conventional anthropological methods as well as to train them to face any kind of challenges that might come up in the field. After the completion of fieldwork, each student will have to prepare a field report under the supervision of field guide. Finally the field report will be examined by the external expert and accordingly mark will be credited.</p>
