Subject: Letter for Collaboration Research.

Dear Prof. Ahmed,

I am writing this letter to you in support of a proposal for continuing our collaborating research work.

In our 11 years of experience (since 2010) in collaboration, we have successfully completed many papers and published 7 no. of papers in various reputed international journals (Scopus). Thank you so much for that. Hereby, I am thinking of continuing our collaboration Research work with Research Domain of new and challenging topics, like Bio-fluid and Bio-Convection Research so that we together will pursue this collaboration and flourish soon with hard effort. I would be pleased to be actively involved in this collaboration for providing new insights and inputs to our society.

I highly recommend you as one of my collaborator for my future Research Work.

Thank you once again and looking forward for your positive response.

With best wishes and regards

Prof. Joaquin Zueco
