Synoptic Glance on Programmes Organized in Collaboration with Gandhi King Foundation, Hyderabad

In the prevailing circumstances when the entire humanity is bleeding under the damaging impacts of Corona Virus Disease (COVID-19) which have shaken the roots of almost every imaginable dimension of our lives across the globe marking the unsustainable nature of socio-economic transactions, and hence, there is a sincere need to revisit the core values and lessons practiced by the Great Soul, loving called as Bapu. His philosophy on 'A Life with Human Values', 'Sanctity of Means and Ends', 'Love thy Enemy', 'Uncompromising Commitments towards Truth and Integrity', 'Simple Living and High Thinking', 'Empathy' and 'Antyodaya' stands timeless and still instills great sense of moral ethics in human beings. While the celebration of the 150th Birth Anniversary of Mahatma Gandhi across the country and abroad is on board, the stress borne by the entire humanity due to prevailing COVID-19 pandemic reminds us the undeterred values of the Mahatma to find succor and strength for meaningful takeaways. This being the backdrop, it is quite appropriate to highlight the significance of his timeless values in the present context in the pursuit and larger vision of a Sustainable future and Self-Reliant India. The world still elicits the importance of moral plurality, self-reliance, non-violence, truth, swadeshi, character education and an empathetic approach to humanity as advocated by the Great soul.

This brief report provides a synoptic glance of the three programmes organized in collaboration with Gandhi King Foundation, Hyderabad.

			and familiarise the younger generations with the ideas of national icons; d. To promote the ideas of Truth, Non-violence and Peace; and e. To carry on the legacies of national icons through such kind of lecture series.			Hyderabad & RGNIYD, NE Regional Centre, Rajiv Gandhi University Campus

In the backdrop of these events it is worth reminding all the stakeholders that the five 'I's including intent, inclusion, investment, infrastructure, and innovation as highlighted by the hon'ble PM Shri Narendra Modi during his clarion call to make India a self-reliant economy during COVID-19 pandemic, though may not have a direct mention of Gandhian Principles and Models, but is indispensable for each one of these five I's to materialize due to the sheer expanse of Gandhian thought towards the basic fabric and constituents of Indian Society/Economy if not for anything else. The discourse on Mahatma hence holds high relevance in given context of COVID-19 and a Self-Reliant Nation.
