	a) cognitive psychology	b) behavioral psychology	c) Psychoanalytic psychology	d) Emotional processing	Psychoanalytic psychology
39	Which of the following statement is correct? i. The phonological loop is responsible for storing verbal and auditory information. ii. The visuospatial sketchpad keeps visual and spatial information stored.				(c)
	a) Only i.	b) Only ii.	c) Both i and ii	d) Neither i nor ii	Both i and ii
40	The information related to riding a bike, folding a laundry, and experiencing of climbing a tree as 7 years old is store in-				(d)
	a) Working memory	b) Sensory memory	c) Short term memory	d) Long term memory	Long term memory
41	Which of the following variable is not a kind of independent variable?				(b)
	a) task variable	b) experimental variable	c) subject variable	d) environment variable	Experimental variable
42	Learning from the results of your behavior is called _____				(a)
	a) Operant conditioning	b) Classical conditioning	c) Generalization	d) none of the above	Operant conditioning
43	i) Range is not a common measure of central tendency. ii) Standard variance is not a measure of variability. iii) Variables which can be measured in terms of height, weight and length are flowchart variables. iv) The discrete variables and continuous variables are types of quantitative classification.				(b)
	a) Only i and ii are true	b) Only i and iv are true	c) Only iii and iv are false	d) Only i and ii are false	Only i and iv are true
44	_____ involve methods of organizing, picturing, and summarizing information from samples and populations.				(a)
	a) Descriptive statistics	b) Inferential statistics	c) Analytical statistics	d) None of the above	Descriptive statistics
45	Match the following				(a)
	i) Thorndike		A) Operant conditioning		
	ii) Watson and Pavlov		B) Insight theory		
	iii) Kohler		A) Classical conditioning		
	iv) Skinner		D) Trial and error learning		
	a) i – D, ii – C, iii – B, iv - A	b) i – B, ii – A, iii – D, iv - C	c) i – B, ii – D, iii - A, iv - C	d) none of the above	i – D, ii – C, iii – B, iv - A
46	A) Assertion: Thorndike purpose connectionism or trial and error learning. B) Justification: Experiment was performed in chickens, rats and cat.				(b)
	a) A and B are correct but B is not the correct explanation of A	b) A and B are correct but B is the correct explanation of A	c) A is false but B is true	d) None of the above	A and B are correct but B is the correct explanation of A

47	A study to test a hypothesis of a causal relationship between two or more variables is known as				(c)
	a) Diagnostic research	b) Descriptive research	c) Hypothesis testing research	d) Formulative research	Hypothesis testing research
48	According to _____ 'psychology is the positive science of behavior.				(b)
	a) Charless F. Skinner	b) J. B. Watson	c) Charak	d) James Drever	J. B Watson
49	Which of the following sampling procedures is least suitable for generalizing experimental results?				(d)
	a) Random sampling	b) Purposive sampling	c) Incidental sampling	d) Stratified or quota sampling	Stratified or quota sampling
50	Which of the following statement is true in the context of short term memory-? i) Its storage capacity is limited ii) Its storage capacity is unlimited iii) Its maximum duration is 20 to 30 seconds. iv) Its maximum duration last up to 2 to 3 minutes				(a)
	a) Only i and iii are true statements	b) Only ii, iii and iv are the correct statements.	c) Only I and iv statements are true statement	d) Only ii and iv are true statement	Only i and iii are true statements
51	_____ is an important characteristics of episode memory.				(c)
	a) Use to acquire different kind of skills	b) Holds all kinds of knowledge	c) The emotional nature of events	d) None of the above	The emotional nature of events
52	We forget because learning new things interferes with our memory of what we learned earlier, is a example of				(d)
	a) Decay	b) Motivation	c) Retrieval	d) interference	Interference
53	Problem oriented research is conducted _____				(b)
	a) to resolve their own problems by companies	b) to understand the exact nature of the problem	c) solving issues that impact the overall well-being of human	d) none of the above	to understand the exact nature of the problem
54	Psychology word is originated from				(a)
	a) Greek work Psyche-logos	b) The word logos-psyche	c) From German language	d) None of the above	Greek work Psyche-logos
55	_____ deals with the study, diagnosis and treatment of psychological disorder.				(b)
	a) Educational psychology	b) Clinical psychology	c) Industrial psychology	d) Social psychology	Clinical psychology
56	Which of the following is not a limitations of the survey method?				(c)
	a) people may give inaccurate	b) people sometimes offer	c) public opinion on	d) none of the above	Public opinion on

	because of the memory lapses	responses they think the researcher want to hear	new issues cannot be obtain fast		new issue cannot be obtain fast
57	Which of the following is NOT a goal of psychology?				(d)
	a) to understand human behavior	b) to predict human behavior	c) to change human behavior	d) to control human behavior	To control human behaviour
